PROPOSED RULE CHANGES FOR 2025**

(Use 1 form for each rule change)

CHANGE IS: NEW ADDITION
 DELETION

CURRENT RULE:

All leagues, except 6U and 7U, will kick-off to start the game and after every score. Kick-offs will be from the 40-yard line. In the 6U and 7U league the ball will be placed on the 30-yard line to start the game and after each touchdown. If a team (9U – 7th Grade) records a safety, the ball will be kicked off from the 20-yard line. In 6U – 8U leagues a safety will result in the ball being placed at the 50-yard line.

8U kickoff after every touchdown.

NEW RULE:

I would like for the 8u go back to kicking off the 1st and 2nd half to start the game not unless the winning team is up by more than 30 points to start the second half.

After every touchdown I would like to place the ball at the 30 yard line to start the series.

REASON:

The reason for going back to this rule is. You only get a 1min in between each series and it is taking way to long to get the kids out there to kickoff after every touchdown.

CHANGE IS: NEW ADDITION

CURRENT RULE:

Uniforms: All jerseys must be reversible. One side is required to be white, the other may be a color of the teams choosing.

NEW RULE:

Uniforms: All teams must have two jerseys. Reversible or two jerseys. One jersey or side must be white, the other jersey or side may be the color of the teams choosing. All teams are responsible for preparedness of any necessary jersey changes. If a player does not have the matching jersey of their team they must be confirmed on the roster, wearing a matching colored jersey and may not have the same number as another player on the field.

REASON:

From a financial standpoint, some companies offer a better price for two jerseys vs reversible jersey. Also, we believe this can assist the players overall body temperature during games that have higher heat index and temperatures.

Rule 2.1 –General Tumbling

NOTE: As it is for all skills, it is the responsibility of the coach to determine the capability and proficiency of the individual athletes when choosing the skills to be performed

1. All tumbling must originate from and land on the performing surface Exception: Tumbler may (without hip-over-head rotation) rebound from his/her feet into a stunt transition. Rebounding to a prone position in a stunt is allowed. Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off. Clarification: Rebounding to a prone position (½ twist to stomach) in a stunt is allowed.
2. Tumbling over, under, or through a stunt, individual, or prop, is not allowed. Clarification: An individual may jump over another individual.
3. Tumbling while holding or in contact with any prop is not allowed.
4. Dive rolls are allowed. Exception: Dive rolls performed in a swan/arched position are not allowed. Exception: Dive rolls that involve twisting are not allowed.
5. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.

Rule 2.2 –Standing Tumbling

1. Skills must involve constant physical contact with the performing surface. Tumbling skills must involve hand support with both hands when passing through the inverted position. Exception: Block cartwheels and round offs are also allowed.
2. Forward and backward rolls, front and back walkovers, and handstands are allowed.
3. Cartwheels and round offs are allowed.
4. Front and back handsprings are allowed.
5. Flips and aerials are not allowed (No Tucks).
6. Series front and back handsprings are not allowed. Clarification: A back walk over into a back handspring is allowed.
7. Jump skills in immediate combination with handspring(s) are not allowed. Example: Toe touch handsprings and handspring toe touches are considered illegal.

8. Non-airborne skills must involve hand support with at least one hand when passing through the inverted position. Example: front and back walkovers, cartwheels and round offs are examples of non-airborne tumbling skills.
9. Airborne skills must involve hand support with both hands when passing through the inverted position. Example: Front and back handsprings are examples of airborne tumbling skills.
10. No twisting while airborne. Exception: Round offs are allowed.

Rule 2.3 – Running Tumbling

1. Flips and aerials are not allowed (Tucks are not allowed).
2. Series front and back handsprings are allowed.
3. Airborne skills must involve hand support with at least one hand when passing through the inverted position.
4. No twisting while airborne. Exception: Round offs are allowed.

Rule 2.4 –Stunts

1. A spotter is required for each top person at prep level and above.
Example: Suspended splits, flat-bodied positions and preps are examples of prep level stunts. Extended arm stunts that are not in the upright position (such as extended v-sits, extended flat backs, etc...) are considered prep level stunts. Clarification: The center base in an extended v-sit may be considered a spotter as long as they are in a position to protect the head and shoulders of the top person. Exception: Shoulder sits/straddles are not considered prep level stunts; and therefore, do not require a spotter.
2. Stunt Levels
 - a. Single leg stunts are only allowed below shoulder (prep) level.
Clarification: If the primary bases squat, go to their knees or drop the overall height of the Stunt and hold the top person at their shoulder level, this skill would be considered shoulder level and therefore illegal, regardless of the back spot's positioning.
 - b. Single leg extended stunts are not allowed.
3. Twisting mounts and transitions are allowed up to a ½ twisting rotation by the top person in relation to the performing surface. Clarification: A twist performed with an additional turn by the bases performed in the same skill set, would be legal if the resulting cumulative rotation of the top person exceeds ½ rotations. The safety judge will use the hips of the top person to determine the amount of total rotation a top person performs in a skill set. Once a stunt is hit (i.e. prep) and the athletes show a definite and clear stop, then they may continue to walk the stunt in additional rotation.
4. During transitions, at least one base must remain in contact with the top person.
5. Free flipping or assisted flipping stunts and transitions are not allowed.

6. No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual. Example: A shoulder sit walking under prep is illegal. Exception: An individual may jump over another individual.
7. Pendulum and pendulum style transitional stunts, where the top person falls away from the Original bases, must use at least three stationary catchers, at least two of which are not original bases. Physical contact must be maintained with all of the original base(s). When lifting a top person from the flat body position in a pendulum to the upright position, an additional base/spotter must be on the opposite side of the stunt and is responsible for catching the top person in the case of an overthrow. This additional spotter must be stationary, may not be involved with any other skill or choreography when the transition is initiated and must maintain visual contact with the top person throughout the entire transition. (The dip to throw the top person is considered the initiation of the skill.)
8. Single based split catches are not allowed.
9. A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position and may only be assisted by a base. Clarification: Log/Barrel roll may not include any skill (example: kick full twists) other than the twist. Clarification: The log roll may not be assisted by another top person.
10. Basket tosses are not allowed.

Rule 2.5 - Release Moves

1. Release moves (i.e., tosses) are not allowed other than those allowed in "Dismounts".
2. Release moves may not land in a prone or inverted position.
3. Release moves must return to original bases.
Clarification: An individual may not land on the performing surface without assistance.
4. Helicopters are not allowed.
5. A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position. Clarification: The log roll may not be assisted by another top person. Clarification: Log/Barrel roll must return to original bases and may not include any skill other than the twist. Example: no kick full twists.
6. Release moves may not intentionally travel.
7. Release moves may not pass over, under or through other stunts, pyramids or individuals.

Rule 2.6 - Stunts-Inversions

1. All inversions must maintain contact with the performance surface. Example: supported handstand.
2. Bases may not support any weight of a top person while that base is in a backbend or inverted

position. Clarification: A person standing on the ground is not considered a top person.

Rule 2.7 - Pyramids

1. Pyramids must follow "Stunts" and "Dismounts" rules and are allowed up to 2 high.
2. Top persons must receive primary support from a base. Clarification: Anytime a top person is released by the bases during a pyramid transition, the top person must land in a cradle or dismount to the performing surface and must follow the dismount rules.
3. Extended stunts must be braced by at least two persons at prep level or below with hand/arm connection only. The connection must be made at or below prep level.
4. Single leg stunts:
 - a. Must be braced by at least one person at prep level or below with hand/arm connection only. The hand/arm of the top person must be, and remain, connected to the hand/arm of the bracer.
 - b. If the person bracing the top person is standing on the performance surface, the bracer must be a separate person not involved with basing or spotting.
 - c. Prep level top persons must have both feet in bases' hands. Exception: Prep level top persons do not have to have both feet in the bases' hands if they are in a shoulder sit, flat back, straddle lift or shoulder stand.
 - d. The connection must be made prior to executing the single leg stunt.
5. Extended single leg stunts may not brace or be braced by any other extended stunts.
6. No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual.

Rule 2.8 - Dismounts

1. Cradles from single based stunts must have a separate spotter with at least one hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
2. Cradles from multi-based stunts must have two catchers and a separate spotter with at least one hand/arm supporting the waist to shoulder region to protect the head and shoulder area through the cradle.
3. Dismounts to the performing surface, from above waist level, from stunts and pyramids must be assisted by an original base. Bases may not intentionally pop, move or toss an athlete to the performance surface without assistance. Straight drops or small hop offs, with no additional skills, from waist level or below are the only dismounts allowed to the performing surface that do not require assistance. Clarification: An individual may not land on the performing surface from above waist level without assistance.
4. Only straight pop downs, basic straight cradles and $\frac{1}{4}$ turns are allowed.
5. Twisting dismounts exceeding $\frac{1}{4}$ turn are not allowed. All other positions are not allowed. Example: toe touch, pike, tuck, etc.

6. No stunt, pyramid, individual, or, prop may move over or under a dismount, and a dismount may not be thrown over, under, or through stunts, pyramids, individuals, or props.
7. No dismounts are allowed from extended stunts in pyramids. Clarification: An extended stunt in a pyramid must be brought down to prep level or below before it can be dismounted.
8. No free flipping or assisted flipping dismounts allowed.
9. Tension drops/rolls of any kind are not allowed.

Rule 2.9 –Tosses

1. No tosses allowed.

Additional Rulings

Any coach, player, or spectator ejected from a game or facility for any reason will serve a minimum of a one game suspension in addition to the suspension from the current game. The coach will not be allowed in or around the facility while serving their suspension. After the first ejection/suspension the coach will be placed on a one year probation period. If a second ejection occurs during the probationary period the coach is suspended for 1 full regular and playoffs, if applicable. Any and all appeals will be brought before the NGYFA Executive Board.

NGYFA Game Day Division Rules

Rule 3.1 Requirements/Scoring:

Teams will be evaluated on their ability to lead the crowd, proper game day skill incorporations, execution of skills, motion technique and of the overall performance.

Teams are also encouraged to incorporate practical skills that enhance their crowd leading ability.

The use of crowd leading tools such as signs, poms, flags and/or megaphones is required (use of all is not required).

Routine must contain at least 2 crowd leading cheers and/or chants.

The judges will score teams following the criteria listed on the Game Day Division Scoresheet.

Rule 3.2 Tumbling:

NOTE: As it is for all skills, it is the responsibility of the coach to determine the capability and proficiency of the individual athletes when choosing the skills to be performed

1. All tumbling must originate from and land on the performing surface Exception: Tumbler may (without hip-over-head rotation) rebound from his/her feet into a stunt transition. Rebounding to a prone position in a stunt is allowed. Example: Round off handspring and then a bump or contact from a base or bracer straight into a back flip would break this rule for levels 1-5. A clear separation from the tumbling to the stunt is needed to make this legal. Catching the rebound and then dipping to create the throw for the rotation is legal. This would also be true if coming from just a standing back handspring without the round off.
2. Tumbling over, under, or through a stunt, individual, or prop, is not allowed. Clarification: An individual may jump over another individual.
3. Tumbling while holding or in contact with any prop is not allowed.

4. Dive rolls are allowed. Exception: Dive rolls performed in a swan/arched position are not allowed. Exception: Dive rolls that involve twisting are not allowed.
5. Jumps are not considered a tumbling skill from a legalities point of view. Therefore, if a jump skill is included in a tumbling pass, the jump will break up the pass.

Rule 3.3 Standing Tumbling:

Standing tumbling is limited to one tumbling skill and a back handspring is the most elite tumbling skill allowed. Examples: Standing full is not allowed. Rippled single back handsprings would be allowed. Jump tumble (single skill) would be allowed.

1. Skills must involve constant physical contact with the performing surface. Tumbling skills must involve hand support with both hands when passing through the inverted position. Exception: Block cartwheels and round offs are also allowed.
2. Forward and backward rolls, front and back walkovers, and handstands are allowed.
3. Cartwheels and round offs are allowed.
4. Front and back handsprings are allowed.
5. Flips and aerials are not allowed (No Tucks).
6. Series front and back handsprings are not allowed. Clarification: A back walk over into a back handspring is allowed.
7. Jump skills in immediate combination with handspring(s) are not allowed. Example: Toe touch handsprings and handspring toe touches are considered illegal.
10. No twisting while airborne. Exception: Round offs are allowed.

Rule 3.3 Stunts:

1. No pyramid is allowed.
2. No tosses (baskets) are allowed.
3. No inversions are allowed.
4. No twisting released dismounts are allowed.
5. Single leg stunts are limited to liberties and liberty hitches.
6. A spotter is required for each top person at prep level and above. Example: Suspended splits, flat-bodied positions and preps are examples of prep level stunts. Extended arm stunts that are not in the upright position (such as extended v-sits, extended flat backs, etc...) are considered prep level stunts. Clarification: The center base in an extended v-sit may be considered a spotter as long as they are in a position to protect the head and

shoulders of the top person. Exception: Shoulder sits/straddles are not considered prep level stunts; and therefore, do not require a spotter.

7. Stunt Levels

a. Single leg stunts are only allowed below shoulder (prep) level. Clarification: If the primary bases squat, go to their knees or drop the overall height of the Stunt and hold the top person at their shoulder level, this skill would be considered shoulder level and therefore illegal, regardless of the back-spot's positioning.

b. Single leg extended stunts are not allowed.

8. During transitions, at least one base must remain in contact with the top person.

9. Free flipping or assisted flipping stunts and transitions are not allowed.

10. No stunt, pyramid, or individual may move over or under another separate stunt, pyramid or individual. Example: A shoulder sit walking under prep is illegal. Exception: An individual may jump over another individual.

Rule 3.4 Release Moves:

1. Release moves – Cradle Position

2. Dismount – Cradle or Squash Position is only allowed

3. Release moves must return to original bases. Clarification: An individual may not land on the performing surface without assistance.

4. Release moves may not intentionally travel.

5. Release moves may not pass over, under or through other stunts, pyramids or individuals.

PROPOSED RULE CHANGES FOR 2025**

(Use 1 form for each rule change)

CHANGE IS: X NEW ADDITION
 DELETION

NEW RULE:

Eligibility: NGYFA member schools with Public High Schools that are located in their County that are not members of the NGYFA, may allow players who are districted to the non NGYFA member high school, participant with their school under the following conditions; A player from a non NGYFA member high school district may register with an NGYFA member school that has availability that is nearest to their home address. The NGYFA member school will file an appeal with the NGYFA Executive Board for players in this circumstance with the necessary supporting documentation. Participants from a non NGYFA affiliated county who do not live or attend school in an NGYFA affiliated high school district are not eligible to participant in an NGYFA program.

REASON:

As counties have grown some schools have chosen to leave the NGYFA or not become a member. This will allow NGYFA schools from those counties to take those players that wish to participant with an NGYFA program nearest to their home address. It will cut down on attempted cheating and give parents in those NGYFA affiliated counties a choice for their child. This rule is intended to help the NGYFA programs in those counties.
