This option will use the Geographic conference in Option #1 for the NFC minus teams listed in this proposal for the AFC in each age group.

Each age group will play 7 regular season games. The top 4 teams will advance to the playoffs after a bye week and conduct the semi-finals and AFC super-bowl.

1. The top 2 finishing teams (Champion and Runner-up) will be placed in the NFC for the next season in their respective conference.
2. Other AFC teams may be placed in the NFC for the next season depending on their record in the AFC and point differential.
3. The bottom 2 teams from the NFC will be placed in the AFC for the next season based on the previous year's record, points scored, points allowed and point differential. Other teams in the NFC may be placed in the AFC depending on the number of spots available (8) per age group in the AFC and their NFC record/point differential from the previous season.
4. Schools with multiple teams in an age group will have their AFC roster frozen at 80% of the roster from the previous year. Example: If team A had 20 players returning then a minimum of 16 returning players for that team must be assigned to their roster. If a school does not field 2 teams in the succeeding year then that team may be reassigned to the NFC by the competition committee.
5. The competition committee will meet each December to determine placement in the AFC/NFC based on the criteria above. Teams may appeal their placement to the full NGYFA board in January. The competition committee will be appointed by the NGYFA commissioner each year.

**NORTH GEORGIA YOUTH FOOTBALL ASSOCIATION
PROPOSED RULE CHANGES FOR 2024**

(Use 1 form for each rule change)

CHANGE IS: # _____ NEW _____ ADDITION
 _____ DELETION

CURRENT RULE:

Drafting Rules 1.3 1. Addition

NEW RULE:

Schools/Agencies can allow the Head Coach to protect up to 80% of their roster from the previous season. All new players must go thru the evaluation and draft process and be drafted according to the rules. When a school/agency adds a new team, the returning team may protect 50% of their roster for the previous year with the new team picking the remaining players until the roster are even numerically, after which the remaining players will be selected using the regular NGYFA drafting, procedure.

REASON:

Most teams already maintain about same percentage of their roster from year to year. Doing this will allow Head Coach's to have continuity in the coaching staff and rosters from year to year. It also allows for player movement if there are circumstances within the team that need to be addressed from an administrative standpoint. This will eliminate some of the drama drafting teams cause every year when teams have to split and allow for some certainly for administrators and coaches.

NEW

____ ADDITION

X DELETION

CURRENT RULE:

Rule 2.1 - #11.

NEW RULE:

REASON:

This rule is no longer needed. Beginning with the 2024 season, all teams must have reversible jerseys or must have a home & away jersey.

PROPOSED RULE CHANGES FOR 2024**

(Use 1 form for each rule change)

CHANGE IS:

NEW

____ ADDITION

X DELETION

CURRENT RULE:

Not exactly sure it was in the 2023 rules. It's the rule regarding agencies with multiple teams within an age division not having to play one another.

NEW RULE:

REASON:

I think agencies with multiple teams should have to play one another. It's not exactly fair for other agencies to have to play multiple agency teams and those multiple agency teams don't have to play each other.

PROPOSED RULE CHANGES FOR 2024**

(Use 1 form for each rule change)

CHANGE IS: # _____ NEW _____ ADDITION
 _____ DELETION

CURRENT RULE:

7 U and 8U Kickoff after every touchdown.

NEW RULE:

I would like to see the 7U and 8U go back to kicking off the beginning of the game
and the start off the second half. And after every touchdown go back to placing the ball
on the 30 yard line.

REASON:

It is taking to long to line the kids up after each score and a lot of the kicks are not going
the minimum 10 yard mark.
